Littlegreen Academy's Vision

Our vision is that all pupils at Littlegreen Academy will grow to be confident adults who communicate well, so that they can live healthy, happy, and successful lives.

The foundation of all our endeavours in everything we do.

Class of the week: ASH

Ash Class have been incredibly busy. Our curriculum has been full of lots of creative activities from art to music to food tech. Our weekly lessons in the food tech room have really seen us improve our culinary skills. We have followed lots of interesting recipes and come up with some yummy treats. We especially loved the mummies we made for Halloween. English has also been especially successful this term as we have been working on our independent writing. The story ideas, characters and settings have been fantastic. Watching the boys develop their own ideas with such enthusiasm and vision has been a joy to see.

Our topic this term is 'Towers and Turrets.' We have been looking at all things to do with castles, how and why they were built and their features. We travelled to Porchester Castle to see what a real one looked like. We had great fun trying on medieval costumes and putting on a show on stage and exploring the moat. The highlight was climbing to the top of the tower, it was a bit scary climbing the spiral staircase, but the view was incredible. We have now begun to look at famous Kings and Queens and have been fascinated at all the things they got up to especially Henry VIII! We have made our very own crowns based on how we would rule our kingdoms if we were to be the monarch.

We were also super lucky to get to make our very own Ash Class snowman! The snow came down thick and heavy, so we wrapped up warm and set to work. We demonstrated all our school values whilst working as a team. We had an idea, and we worked together until we had achieved it. Well done Ash Class!

Subject of The Week: Science

Preparations are in progress to support our budding young scientists with their Technical Skills Day courses at Chichester College. We have been learning about Health & Safety in the Science Laboratory.

Pupils have been understanding the importance of hygiene, and growing bacteria using an algae medium. They have been having lots of fun with this subject by conducting experiments to learn the reason why it is so important to wash hands and to wear the appropriate clothing.

Pupils in Butser class are working toward their Health & Safety in the Workplace Unit award. This will help embed their learning in the catering course they attend at Chichester College. Well done

Value of the week: Courage

Ryan from Harting class has shown **courage** this week when learning how to mountain bike.

Kaleb, Harry and Adam from Kingley class have all shown great **courage** when they went to a new work place and all gained valuable work experience

Corey from Butser class has been working hard and showing enormous **courage** and staying at college with enthusiasm and completing your project!

Theo from Ash class has shown **courage** when making a fire in forest school and never giving up.

Charlie from Beacon has shown great **courage** with working super hard in class and showing great determination

epraise

Congratulations to our top point scorers of the week:

Luca from Willow class for lower school

Harry from Kingley class for upper school

Forthcoming Events

2nd December- Inset Day

12th December- Christmas Jumper Day

19th December- Christmas Lunch

20th December- Last Day of Term (1pm Finish)
