Littlegreen Academy's Vision

Our vision is that all pupils at Littlegreen Academy will grow to be confident adults who communicate well, so that they can live healthy, happy, and successful lives.

The foundation of all our endeavours in everything we do.

Class of The Week: Bignor Class

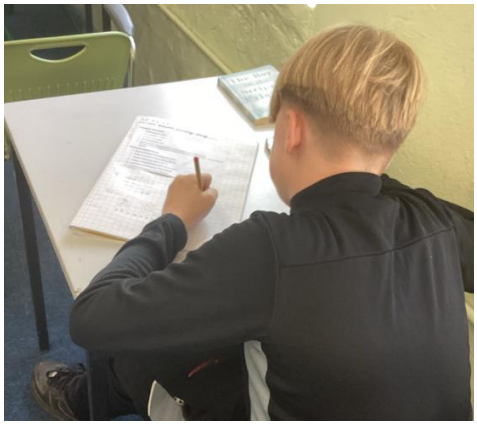
This half term in Bignor class, pupils are continuing their journey towards preparing for their GCSEs in English and Maths.

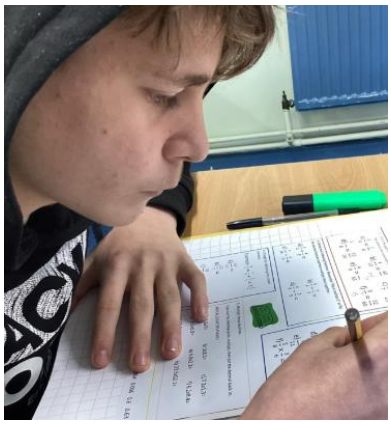
In English, pupils have begun their study of the novel, The Boy in the Striped Pyjamas, which has linked nicely into their studying of the world wars in their history lessons.

In Maths, pupils have further developed their skill set and knowledge on all thing's fractions, decimals and percentages.

Pupils continue to work hard on Tuesdays at Chichester College and have developed their skills in their chosen courses. We have seen vast improvements in the construction department, with some budding carpenters and tilers, some future mechanics at the college garage and some superb sports over in the sports ground.

The pupils in Bignor class have come so far this academic year and are at full steam ahead as they begin to think about their year 11 adventure from September!





Forthcoming Events

5th May- Bank Holiday

12th – 14th May- KS2 SATS experience

22nd May- Festival on the Green in Honor of Pamela Payne (Volunteer)

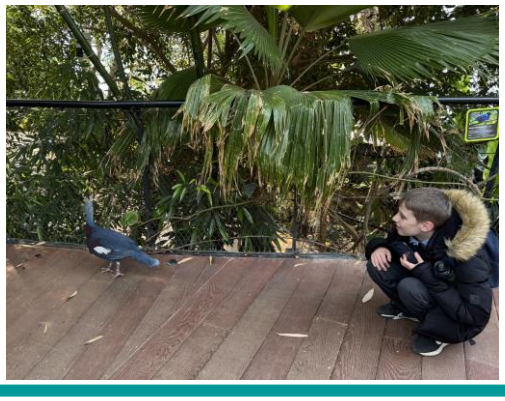
5th June- Parents Evening

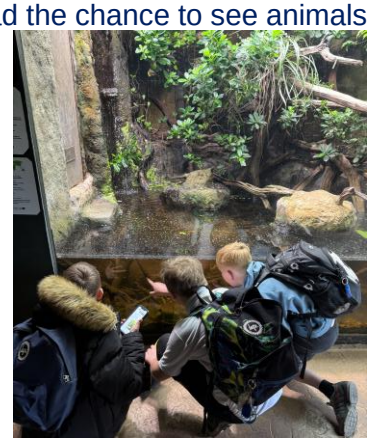
Subject of the Week: Humanities

This term in KS3 Humanities, pupils will explore key moments in world history, with a special focus on the formation of modern-day America. Through engaging lessons and activities, we will gain a deeper understanding of the events that have shaped our world.

In Geography, pupils will be stepping outside of the classroom to take part in a fieldwork investigation along a section of our local coastline. This hands-on experience will help develop important geographical skills while deepening their knowledge of coastal environments. As part of their Geography fieldwork, pupils have begun investigating our local coastline by asking thoughtful questions such as: What types of marine wildlife can be found here? What human features are present along the coast? Who visits the area and why? This inquiry-based approach encourages pupils to think critically about the environment and the interactions between people and nature.

Next term, KS2 pupils will dive into their new topic, *Space to Sea*, where they will explore all aspects of the coast, including wildlife, habitats, and how humans interact with coastal environments. This follows on from last term's exciting topic, '*Where in the World?'*, which focused on global geography, cultures, and traditions. The topic concluded with an unforgettable trip to Marwell Zoo, where pupils had the chance to see animals from around the world and connect their learning to real-life experiences.





Value of the Week

Adam from Kingley class has been **accepting** of his future progression by attending an interview at Chichester college.

Jacob from Elm class has been **accepting** of his school routine and work.

Layton from Ash class has been **accepting** of new information and rules following his start at Littlegreen this week.

Harrison from Bignor class has been **accepting** of his summer term targets and is writing more independently.

Finley from Willow class has been accepting of help from staff.

Oscar from Harting class displayed **acceptance** while playing Cricket- he encouraged and supported his peers wonderfully.

epraise

Congratulations to our top point scorers of the week:

Reuben from Ash class for lower school

Boaz from Butser class for upper school
