Littlegreen Academy's Vision

Our vision is that all pupils at Littlegreen Academy will grow to be confident adults who communicate well, so that they can live healthy, happy, and successful lives.

The foundation of all our endeavours in everything we do.

Class of The Week: Elm

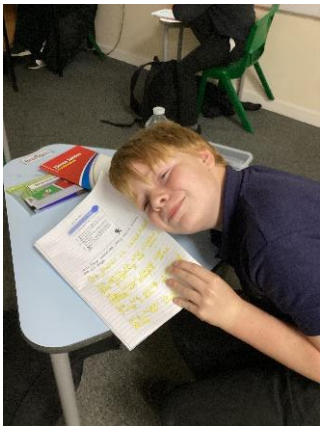
Pupils have settled back into school routines with maturity and resilience, showing a thoughtful and supportive attitude.

It has been particularly encouraging to see how well they have embraced opportunities to reconnect with others across the school community. A highlight has been their enthusiastic participation in the Connect 4 challenge, where they worked alongside peers from different classes. The pupils demonstrated excellent teamwork, communication, and sportsmanship throughout.

We are especially proud of how they handled both winning and losing. They showed respect for one another, celebrated successes appropriately, and coped well with setbacks—displaying resilience and a positive mindset.

As a whole school, we are placing a strong focus on times tables, and the pupils returned to an exciting and interactive challenge. Staff members wore different times tables around the school, encouraging pupils to approach them and answer questions throughout the day. Elm class engaged brilliantly with this activity, showing enthusiasm and a willingness to challenge themselves while building their fluency.

Overall, Elm class has made a strong and encouraging start to this final part of the term, and we look forward to building on this progress in the weeks ahead.



Forthcoming Events

11th June- Parents Evening

12th June- Inset Day

2nd July- Sports Day

9th July- STEM Fest

26th June- Year 11 Leavers Celebration

Subject of The Week: Lower School Forest School

Forest School continues to be a place where our pupils thrive.

The spring term proved particularly exciting with some extra special wild visitors; a group of fledgeling tawny owls. When owls first leave the nest they spend time on the forest floor building up their strength whilst they learn to fly. Seeing them in our woodland has provided the perfect opportunity for our pupils to learn about their natural behavior.

Meanwhile, in the forest school classroom Ash class have enjoyed experimenting with cooking damper bread and cookies over the open fire, showing great patience and creativity.

Oak class have challenged themselves to build the biggest fire they safely can, the teamwork has been amazing from bringing the equipment out at the start of the session through to putting the fire out at the end.

Elm Class are learning to share tips with eachother regarding safe and efficient tool use, developing their friendships and showing kindness towards eachother.

Pupils from Willow Class have shown exceptional dedication, preparing their equipment prior to their lessons so that they can continue thier experiments. They are currently enjoying investigating different metals and whether or not it is possible to melt or soften them over an open fire.

Right Of The Week

Protection From Harmful work

Children have the right to be protected from doing work that is dangerous or bad for their education, health or development. If children work, they have the right to be safe and paid fairly.

E-Praise

Congratulations to our highest point scorers for this week:

Riley R from Kingley class for upper school

Malaki from Elm class for lower school
