Littlegreen Academy's Vision

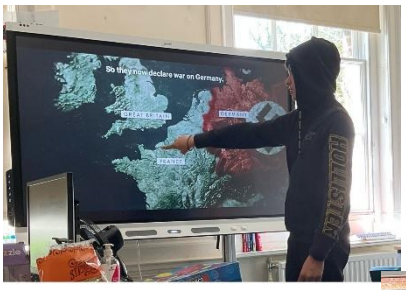
Our vision is that all pupils at Littlegreen Academy will grow to be confident adults who communicate well, so that they can live healthy, happy, and successful lives.

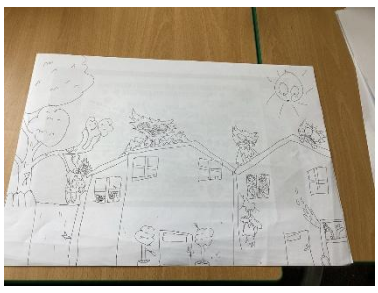
The foundation of all our endeavours in everything we do.

Subject Of The Week- Humanities

Over the past few weeks, all pupils have been having a wonderful time diving into their new learning: With Upper School focusing on a global World Cup theme and an exciting new Topic in Lower School! In Upper School, pupils took a global approach by tackling a World Cup reading comprehension challenge and putting their geography skills to the test to find different countries on a world map, the pupils did a fantastic job practising their brilliant social and turn-taking skills while out and about off-site.

Meanwhile, history and creativity came alive in Lower School as our pupils loved exploring the heritage of our own school during their Topic work. One pupil had a wonderful time walking around the grounds to find a special piece of artwork made all the way back in the 1950s by the people who renovated the building, and another pupil turned into a history detective, matching up past and present pictures of Littlegreen from around the room to figure out exactly where they were taken. To top off an amazing few weeks, all the Lower School pupils also had a fantastic time exploring international traditions as part of their learning, trying some delicious Chinese food and practising using chopsticks. It has been a brilliant period of learning, teamwork, and achievement across the school—we are so proud of all the pupils. Well done, everyone!





Class Of The Week- Harting

It has been a fantastic year for our Year 8 pupils, with lots of progress, enthusiasm, and memorable experiences across a variety of subjects. Throughout the year, they have demonstrated our core values of **kindness, ambition, perseverance and courage** in many aspects of their learning.

In English, pupils have been developing their understanding and use of figurative language techniques. We have explored metaphors, similes, personification, and onomatopoeias, and the pupils have done a brilliant job applying these techniques in their own writing. It has been great to see their creativity grow, with many producing imaginative and expressive pieces that bring their ideas to life.

In Maths, the class has been focusing on decimals, building both confidence and accuracy in this area. Alongside this, there has been significant progress in multiplication and division skills, with pupils showing clear improvement in both speed and understanding. Their hard work and dedication have really paid off, and it's been pleasing to see their confidence increase.

In PE, all pupils have had the opportunity to try new sports, including curling and spikeball. Both activities have been very well received, and it has been fantastic to see all pupils getting involved and enjoying themselves. Their teamwork, effort, and positive attitudes have been commendable throughout. Also, as the weather has improved, we have spent more time exploring the forest and enjoyed a collaborative game of manhunt with lower school. Pupils were excellent role models, working well together in small teams.

Forthcoming Events

26th June- Year 11 Leavers Celebration
1st July – Year 8 and 9 Vaccinations
2nd July- Sports Day
10th July- Transition Day Into New Classes
17th July- STEM Fest
21st July- Last Day of Term 1pm finish

Right Of The Week

Contact With parents Across Countries

Governments must do all they can to make sure that every child in their countries can enjoy all the rights in this Convention.
